Larry Dalman – Grading Coins

### **Larry's Bio:**

I have been a collector of Canadian coins since my teens. I enjoy the research and history that is associated with Canada and the other countries that influenced our coinage and currency.

After retiring from the R.C.M.P. After 46 years, I decided that I wanted to do something much different and decided to start my own business to sell, educate and assist individuals with their collections.

Since becoming involved with the Manitoba Coin Club, my goal was never to take over the Club or be the President but look at ways to develop it and increase the image and footprint of the Club in Manitoba.

I had been a long time customer of the Mint and for over 30 years got to know the staff at the Mint and began working closely with them and assisting whenever needed to improve our relationship with our Club.

That is where we succeeded with the Coin Exchanges, being able to talk to customers and build a bond at a variety of levels.

I believe individuals involved in Numismatics can increase the hobby and build a larger and stronger Club by being accepting of each other and working for a common goal and friendship.
